

Important Risk Warning

- The mention of any investment product should not be construed as representing a recommendation to buy or sell that product, nor does it represent a forecast on future performance of the product.
- Unit Trusts are investment products and some may involve derivatives. The value of investments and units may go down and up, and the investor may not get back the original sum invested. Past performance is not necessarily indicative of future performance. In a worst case scenario, the value of the fund may worth substantially less than the original amount you have invested (and in an extreme case could be worth nothing).
- Investors and potential investors must not solely rely on the content in this website to make investment decisions and should read carefully and understand the offering documents (including the prospectus and full text of the risk factors stated therein), available at HSBC branches and at the fundhouses' webpages, before investing.
- Before you make any investment decision, you may wish to consult a financial adviser. In the event that you choose not to seek advice from a financial adviser, you should carefully consider whether the investment product is suitable for you.

HSBC Risk Level: 3

Investment Objective

The sub-fund aims to provide long term total return by investing in companies that may benefit from the transition to a low carbon economy. The sub-fund aims to do this with a lower carbon intensity and a higher environmental, social and governance ("ESG") rating, calculated respectively as a weighted average of the carbon intensities and ESG ratings given to the issuers of the sub-fund's investments, than the weighted average of the constituents of the MSCI AC World Net index. The sub-fund invests in normal market conditions a minimum of 70% of its net assets in equities and equity equivalent securities of companies with revenue exposure to climate transition themes ("Climate Transition Themes") which are domiciled in, based in, carry out business activities in, or are listed on a Regulated Market in, any country including both developed markets and Emerging Markets. The sub-fund may also invest in eligible closed-ended Real Estate Investment Trusts ("REITs").
