

Important Risk Warning

- The mention of any investment product should not be construed as representing a recommendation to buy or sell that product, nor does it represent a forecast on future performance of the product.
- Unit Trusts are investment products and some may involve derivatives. The value of investments and units may go down and up, and the investor may not get back the original sum invested. Past performance is not necessarily indicative of future performance. In a worst case scenario, the value of the fund may worth substantially less than the original amount you have invested (and in an extreme case could be worth nothing).
- Investors and potential investors must not solely rely on the content in this website to make investment decisions and should read carefully and understand the offering documents (including the prospectus and full text of the risk factors stated therein), available at HSBC branches and at the fundhouses' webpages, before investing.
- Before you make any investment decision, you may wish to consult a financial adviser. In the event that you choose not to seek advice from a financial adviser, you should carefully consider whether the investment product is suitable for you.

👑 HSBC Global Fund Approvals and Research List 📊 Top 10 Performers 🏠 CPFIS/SRS 📄 MIP

HSBC Fund Code:
SFWUA

Fund Name: Schroder ISF Global Sustainable Food and Water USD A
Acc 📄

| Specific Attitude towards Investment Risks | Risk Level of Investment Product Suitable for Consideration | Description |
|--|---|---|
| Secure | Products with NO investment risk | The product has no investment element and hence no price volatility, and is 100% capital protected upon maturity (for products with scheduled maturity). |
| Cautious | Low(1) | The price volatility of the product is low, and the project is normally 100% capital protected upon maturity (for products with scheduled maturity). Customer may adopt a passive strategy on the investment. This product may be suitable for investors who are happy to accept low level of investment risk. |
| | Low to Medium(2) | The price volatility of the product is low to medium. Some market monitoring may be required to control relevant risks of the product. This product may be suitable for investors who are happy to accept low-to-medium of investment risk. |
| Balanced | Medium(3) | The price volatility of the product is medium. Active market monitoring and management may be required to control the relevant risks. This product may be suitable for investors who are happy to accept medium level of investment risk. |
| Adventurous | | The price volatility of the product is medium to high. Customers may need to realize immediate loss of certain portion of capital. Careful selection of product and active market monitoring and management may be required to control the relevant risks. This product may be suitable for investors who are happy to accept medium-to-high level of investment risk. |
| Speculative | Medium to High(4) | The price volatility of the product is medium to high. Customers may need to realize immediate loss of certain portion of capital. Very careful selection of product and very active market monitoring and management may be required to control the relevant risks. |
| | High(5) | The price volatility of the product is medium to high. Customers may need to realize immediate loss of certain portion of capital. Very careful selection of product and very active market monitoring and management may be required to control the relevant risks. This product may be suitable for investors who are happy to accept high level of investment risk. |
