

Important Risk Warning

- The mention of any investment product should not be construed as representing a recommendation to buy or sell that product, nor does it represent a forecast on future performance of the product.
- Unit Trusts are investment products and some may involve derivatives. The value of investments and units may go down and up, and the investor may not get back the original sum invested. Past performance is not necessarily indicative of future performance. In a worst case scenario, the value of the fund may worth substantially less than the original amount you have invested (and in an extreme case could be worth nothing).
- Investors and potential investors must not solely rely on the content in this website to make investment decisions and should read carefully and understand the offering documents (including the prospectus and full text of the risk factors stated therein), available at HSBC branches and at the fundhouses' webpages, before investing.
- Before you make any investment decision, you may wish to consult a financial adviser. In the event that you choose not to seek advice from a financial adviser, you should carefully consider whether the investment product is suitable for you.

Investment Objective

The sub-fund aims to provide total return by investing in a portfolio of corporate bonds for a limited term. It is intended that the sub-fund's term will end on 3 January 2022 (the "Term Date"), the date when the sub-fund will be liquidated and Shares of the sub-fund will be compulsorily redeemed at the prevailing Net Asset Value per Share. The Term Date may be deferred for up to 3 months if the Board of Directors believes it is in the best interests of shareholders. The Investment Adviser will seek to invest in bonds with the intention of holding them to maturity whilst actively monitoring and maintaining the portfolio. The Investment Adviser may sell bonds that it believes will suffer a deterioration in credit quality over time and/or purchase bonds that it believes will provide better investment returns. The sub-fund will invest in bonds with a final maturity date on or before the Term Date.
