

Important Risk Warning

- The mention of any investment product should not be construed as representing a recommendation to buy or sell that product, nor does it represent a forecast on future performance of the product.
- Unit Trusts are investment products and some may involve derivatives. The value of investments and units may go down and up, and the investor may not get back the original sum invested. Past performance is not necessarily indicative of future performance. In a worst case scenario, the value of the fund may worth substantially less than the original amount you have invested (and in an extreme case could be worth nothing).
- Investors and potential investors must not solely rely on the content in this website to make investment decisions and should read carefully and understand the offering documents (including the prospectus and full text of the risk factors stated therein), available at HSBC branches and at the fundhouses' webpages, before investing.
- Before you make any investment decision, you may wish to consult a financial adviser. In the event that you choose not to seek advice from a financial adviser, you should carefully consider whether the investment product is suitable for you.

HSBC Fund Code:
HCBAS

Fund Name: HSBC Global Investment Funds - Global Corporate Bond
Climate Transition AC SGD

HSBC Risk Level: 2

Investment Objective

The sub-fund aims to provide long term total return by investing in a portfolio of corporate bonds, while promoting ESG characteristics within the meaning of Article 8 of SFDR. The sub-fund aims to do this with a lower carbon intensity calculated as a weighted average of the carbon intensities of the sub-fund's investments, than the weighted average of the constituents of the Bloomberg Barclays Global Aggregate Corporate Diversified Hedged USD (the "Reference Benchmark"). The sub-fund invests (normally a minimum of 70% of its net assets) in Investment Grade and Non-Investment Grade rated fixed income and other similar securities issued by companies meeting certain lower carbon criteria ("Lower Carbon Criteria"). The sub-fund will invest in both developed markets and Emerging Markets. Investments will be denominated in developed market and Emerging Market currencies.
