

Important Risk Warning

- The mention of any investment product should not be construed as representing a recommendation to buy or sell that product, nor does it represent a forecast on future performance of the product.
- Unit Trusts are investment products and some may involve derivatives. The value of investments and units may go down and up, and the investor may not get back the original sum invested. Past performance is not necessarily indicative of future performance. In a worst case scenario, the value of the fund may worth substantially less than the original amount you have invested (and in an extreme case could be worth nothing).
- Investors and potential investors must not solely rely on the content in this website to make investment decisions and should read carefully and understand the offering documents (including the prospectus and full text of the risk factors stated therein), available at HSBC branches and at the fundhouses' webpages, before investing.
- Before you make any investment decision, you may wish to consult a financial adviser. In the event that you choose not to seek advice from a financial adviser, you should carefully consider whether the investment product is suitable for you.

👑 HSBC Global Fund Approvals and Research List 📊 Top 10 Performers 🏠 CPFIS/SRS 📄 MIP

HSBC Fund Code:
HEMBE

Fund Name: HSBC Global Emerging Markets Bond Fund (Class AD /
Reinvest) 👑 🏠

HSBC Risk Level: 4

Investment Objective

The sub-fund invests for total return primarily in a diversified portfolio of Investment Grade and Non-Investment Grade rated fixed income (e.g. bonds) and other similar securities either issued by companies which have their registered office in Emerging Markets around the world, primarily denominated in US Dollar, or which are issued or guaranteed by governments, government agencies, quasi-government entities, state sponsored enterprises, local or regional governments (including state, provincial, and municipal governments and governmental entities) and supranational bodies of Emerging Markets. The sub-fund may invest more than 10% and up to 30% of its net assets in securities issued by or guaranteed by a single sovereign issuer with a Non-Investment Grade credit rating. This is due to the fact that the sub-fund's reference benchmark, the JP Morgan Emerging Market Bond Index, may contain sovereign issuers that may have a Non-Investment Grade rating.
