

Important Risk Warning

- The mention of any investment product should not be construed as representing a recommendation to buy or sell that product, nor does it represent a forecast on future performance of the product.
- Unit Trusts are investment products and some may involve derivatives. The value of investments and units may go down and up, and the investor may not get back the original sum invested. Past performance is not necessarily indicative of future performance. In a worst case scenario, the value of the fund may worth substantially less than the original amount you have invested (and in an extreme case could be worth nothing).
- Investors and potential investors must not solely rely on the content in this website to make investment decisions and should read carefully and understand the offering documents (including the prospectus and full text of the risk factors stated therein), available at HSBC branches and at the fundhouses' webpages, before investing.
- Before you make any investment decision, you may wish to consult a financial adviser. In the event that you choose not to seek advice from a financial adviser, you should carefully consider whether the investment product is suitable for you.

👑 HSBC Global Fund Approvals and Research List 📊 Top 10 Performers 🏠 CPFIS/SRS 📄 MIP

HSBC Fund Code:
SDMSC

Fund Name: Schroder ISF Global Dividend Maximiser (Class A / Dis / Cash) 📄

HSBC Risk Level: 3

Investment Objective

The Fund aims to deliver an income of 7% per year by investing in equities or equity related securities of companies worldwide. This is not guaranteed and could change depending on market conditions. The Fund is actively managed and invests at least two thirds of its assets (excluding cash) in equities or equity related securities worldwide, which are selected for their income and capital growth potential. To enhance the yield of the Fund the Investment Manager selectively sells short dated call options over individual securities held by the Fund, generating extra income by agreeing strike prices above which potential capital growth is sold.

Investment Strategy

HSBC investment category: Global
Investment style: Equity
Interest rate sensitivity: -
Investment instrument: Stock, Cash

Investment style is only applicable for funds that invest in equities. Interest rate sensitivity is only applicable for funds that invest in fixed income product.
