

Important Risk Warning

- The mention of any investment product should not be construed as representing a recommendation to buy or sell that product, nor does it represent a forecast on future performance of the product.
- Unit Trusts are investment products and some may involve derivatives. The value of investments and units may go down and up, and the investor may not get back the original sum invested. Past performance is not necessarily indicative of future performance. In a worst case scenario, the value of the fund may worth substantially less than the original amount you have invested (and in an extreme case could be worth nothing).
- Investors and potential investors must not solely rely on the content in this website to make investment decisions and should read carefully and understand the offering documents (including the prospectus and full text of the risk factors stated therein), available at HSBC branches and at the fundhouses' webpages, before investing.
- Before you make any investment decision, you may wish to consult a financial adviser. In the event that you choose not to seek advice from a financial adviser, you should carefully consider whether the investment product is suitable for you.

👑 HSBC Global Fund Approvals and Research List 📄 Top 10 Performers 🏠 CPFIS/SRS 📄 MIP

HSBC Fund Code: TUOS	Fund Name: Franklin US Opportunities Fund (Class A / Acc) 👑 📄	HSBC Risk Level: 4
-------------------------	--	--------------------

Investment Objective

The Fund's investment objective is capital appreciation. The Fund invests principally in equity securities of US companies demonstrating accelerating growth, increasing profitability, or above-average growth or growth potential as compared with the overall economy. Equity securities generally entitle the holder to participate in a company's general operating results. They include common stocks, convertible securities and warrants on securities. The Fund principally invests in small, medium, and large capitalisation companies with strong growth potential across a wide range of sectors. In selecting equity investments, the Investment Manager utilises fundamental, bottom-up research focusing on companies believed to possess sustainable growth characteristics and which meet growth, quality and valuation criteria.
